

com.carrental.service.Booking
Service.processPayment

com.carrental.service.Booking
Service.updateBooking

com.carrental.models.Booking.getUser

```
graph LR; A["com.carrental.service.Booking  
Service.processPayment"] --> C["com.carrental.models.Booking.getUser"]; B["com.carrental.service.Booking  
Service.updateBooking"] --> C;
```

The diagram illustrates a dependency or data flow. On the left, two white rectangular boxes with black borders represent service methods: 'com.carrental.service.Booking Service.processPayment' (top) and 'com.carrental.service.Booking Service.updateBooking' (bottom). On the right, a gray rectangular box represents a model method: 'com.carrental.models.Booking.getUser'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both service methods depend on or utilize the model method.
