

com.carrental.service.Payment
GatewayService.processPayment

com.carrental.service.Booking
Service.updateBooking

com.carrental.models.Booking.get
PaymentMethod

```
graph LR; A[com.carrental.service.PaymentGatewayService.processPayment] --> C[com.carrental.models.Booking.getPaymentMethod]; B[com.carrental.service.BookingService.updateBooking] --> C;
```

The diagram illustrates a dependency or data flow. On the left, two white rectangular boxes represent service methods: 'com.carrental.service.PaymentGatewayService.processPayment' (top) and 'com.carrental.service.BookingService.updateBooking' (bottom). On the right, a gray rectangular box represents a model method: 'com.carrental.models.Booking.getPaymentMethod'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both service methods rely on or access the model method.
