

com.carrental.service.Payment
GatewayService.processPayment

com.carrental.service.Booking
Service.updateBooking

com.carrental.models.Booking.get
PaymentMethod

```
graph LR; A[com.carrental.service.PaymentGatewayService.processPayment] --> C[com.carrental.models.Booking.getPaymentMethod]; B[com.carrental.service.BookingService.updateBooking] --> C;
```

The diagram illustrates a dependency or data flow. On the left, two white rectangular boxes represent service methods. The top box contains the text 'com.carrental.service.PaymentGatewayService.processPayment' and the bottom box contains 'com.carrental.service.BookingService.updateBooking'. On the right, a gray rectangular box represents a model method, containing the text 'com.carrental.models.Booking.getPaymentMethod'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both service methods depend on or utilize the model method.
