

com.carrental.service.Payment
GatewayService.processPayment

com.carrental.service.Booking
Service.updateBooking

com.carrental.models.Booking.get
PaymentMethod

```
graph LR; A[com.carrental.service.PaymentGatewayService.processPayment] --> C[com.carrental.models.Booking.getPaymentMethod]; B[com.carrental.service.BookingService.updateBooking] --> C;
```

The diagram illustrates a dependency or data flow. On the left, two white rectangular boxes represent service methods: 'com.carrental.service.PaymentGatewayService.processPayment' and 'com.carrental.service.BookingService.updateBooking'. On the right, a gray rectangular box represents a model method: 'com.carrental.models.Booking.getPaymentMethod'. Two blue arrows point from the service methods to the model method, indicating that both services rely on or interact with the model's payment method.
